Solution Walkthrough Videos

A video thumbnail showing a homework problem and its solution. The problem is a journal entry problem for Albatross Company. The solution is a T-account for Accounts Receivable.

The following transactions are for Albatross Company.

- On March 8, Albatross Company sold 200,000 units of merchandise to Seagull Co. for \$250,000. The cost of the merchandise sold was \$200,000.
- Seagull Co. was granted an allowance of \$15,000 for merchandise returned on March 3.
- On March 15, Albatross Company received the balance due from Seagull Co.

Instructions

a) Prepare the journal entries to record these transactions on the books of Albatross Company. Albatross uses a perpetual inventory system.

Assume that Albatross Company received the return in late March. Seagull Co. on April 2 entered a return on its books and journal entry on the date of March 25. Record the journal entry on the return of the return of accounts on April 2.

Date	Account	Debit	Credit
